OBJECTIVE

Detail-oriented **Software Developer** with hands-on experience in **Java, Node.js, and TypeScript**, focused on building scalable REST APIs, secure authentication, and clean modular code. Strong foundation in **OOP, SDLC, and database-backed web applications**, with a track record of improving performance and maintainability across services.

PROFESSIONAL EXPERIENCE

Software Development Intern **June 2025 – Present**
Amigo Techno Park Pvt Ltd

- Contributed to backend services using **Node.js** and **TypeScript**, ensuring high performance and scalability.
- Developed and deployed **RESTful APIs** integrated with **PostgreSQL** for seamless data handling.
- Collaborated in an **Agile team** using Git for version control and VS Code for development.
- Optimized existing codebases by improving data processing efficiency and modularizing business logic.
- Enhanced debugging, testing, and deployment pipelines to support production-grade microservices.

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, TypeScript
Frameworks & Libraries:	Spring Boot, Hibernate, Express.js
Web Technologies:	HTML, CSS, RESTful APIs
Databases:	MySQL, PostgreSQL
Tools & Platforms:	Maven, Git, VS Code, Eclipse, Postman
Concepts:	Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Agile Methodology

PROJECTS

Hospital Management System GitHub

- Engineered a web-based hospital management platform with user, admin, and doctor panels.
- Implemented secure authentication and CRUD operations for patient appointment management.
- Enhanced user experience by integrating dynamic UI components.
- Technologies:** Java, MySQL, HTML, CSS, JavaScript

User Authentication GitHub

- Designed and deployed a secure authentication system using hash tokens for access control.
- Added account verification features to strengthen login security.
- Technologies:** Java, MySQL, HTML, CSS, JavaScript, Spring Boot, Spring MVC

Task Management System

- Created a REST API-driven application for managing tasks including creation, update, and delete operations.
- Ensured optimized database interactions and clean code practices.
- **Technologies:** Java, Spring Boot, REST API, H2 Database (In-Memory)

TRAINING DETAILS

Java Developer Trainee – 360 Digrii

- Completed 6 months of hands-on training covering Core Java, Advanced Java, JDBC, and database integration.
- Worked on real-world projects emphasizing object-oriented design, debugging, and version control.

EDUCATION

Master of Business Administration (Finance)

2022

Sri Indu P.G College

CGPA: 6.59

Bachelor of Commerce (Computers)

2020

Arunodaya Degree College

CGPA: 7.83

STRENGTHS

- Strong analytical and problem-solving mindset.
- Quick learner with adaptability to new tools and technologies.
- Team-oriented, collaborative, and effective communicator.
- Passionate about building scalable and secure enterprise applications.
